DETAILED ACTION

1. Applicant's election of restricted claims has been considered and entered. Group I containing claims 1-26 has been elected.
2. Claims 1-42 are pending. Claims 1-26 are presented for examination. Claims 27-42 are withdrawn from consideration.

Allowable Subject Matter

3. Claims 1-26 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach or render obvious a method and apparatus for processing a head slider having a bearing surface wherein a material stress pattern to be applied to a working surface of the slider based on measured contour shape parameters within a plurality of localized areas on the bearing surface. In particular, the measured contour shape parameter among a first of the localized areas is weighted more heavily than those within the other localized areas.

Moreover, the calculative expressions used by the instant invention to measure the curvature of the slider are specific to the methodology as claimed by the instant claims. The limitations of claims 1, 14, and 26 in combination with the other elements and features of the instant invention are not taught or fairly suggested by the teachings of prior art. Furthermore, evidence for modifying the prior art teachings by one of ordinary skill level in the art was not uncovered so as to result in the invention as recited in claims 1-26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2125

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 27-42.
